Summary

Final-year Informatics student mapping system analysis into UI/UX design. I specialize in breaking down SRS documents to create practical web and mobile layouts. Working in Agile setups, my main focus is delivering designs that are clear for users and ready to be coded.

Education

Universitas Pasundan - Bandung, Indonesia
Bachelor of Informatics Engineering

Aug 2022 - Current

Projects

Sudut Bandung - Smart Bandung Travel Marketplace

Feb 2025 - May 2025

System Analyst | Academic Project - Software Project

- Served as a System Analyst within an Agile team, focusing on the design and logic of WebSocket-powered notification systems and real-time chat support features.
- Drafted module-specific SRS documentation, including sequence diagrams, user flows, and data structures while coordinating with other analysts to ensure technical feasibility and seamless system integration.

Finanku - Students Finance Management Website

Aug 2025 - Dec 2025

UI/UX Designer | Internship Project

- Mapped user personas, flows, and journey maps to translate student financial pain points into targeted, functional features.
- Conducted mixed-method usability testing with target users, achieving a 74.8% feasibility index via Likert scales. Utilized qualitative feedback from open-ended sessions to drive targeted design iterations.

Leaf-in: D2C Healty Food Mobile Application

May 2025- June 2025

Team Leader & UI/UX Designer | Academic Project – Mobile Programming Practicum

- Directed the design of a D2C mobile application to address a market gap, prioritizing the visibility of affordable healthy food often buried in mainstream superapps.
- Established a cohesive brand identity by designing custom UI components, scalable iconography, and logos from scratch utilizing Adobe Illustrator and Photoshop.

Work Experience

Google Developer Groups On Campus Universitas Pasundan

Sept 2024 - Jul 2025

Staff of Media Creative Department

- Designed multi-platform visual assets (social media, banners, merchandise) in strict compliance with Google's official brand guidelines.
- Partnered with technical teams to translate complex event requirements into clear, engaging visual communications.

PT VINIX SEVEN AURUM

Aug 2025 - Dec 2025

Junior Web Developer & UI UX (MSIB Mandiri) | Remote

- Translated user requirements into functional product logic by mapping user personas, flows, and journey maps.
- Developed interactive wireframes and prototypes, aligning UX design principles with frontend web development standards to ensure seamless technical execution.

Skills & Languages

- Skills : UI/UX Design, Design Thinking, Figma, Adobe Illustrator, System Analysis, Basic Web Development (HTML/CSS/JS).
- Language: Indonesian (Native), English (Intermediate - Proficient in Technical Reading)
