Jl. Kantor Pos Jungjang No. 627, Arjawinangun District, Cirebon Regency, West Java, Indonesia

Summary

An Informatics Engineering student with one year of experience in UI/UX Design. Skilled in using Figma and Adobe Illustrator to develop design solutions that are logical, technically implementable, and visually engaging. Motivated to apply my skills within a supportive team.

Education

Universitas Pasundan - Bandung, Indonesia Bachelor of Informatics Engineering	Aug 2022 - Jul 2026 (Expected)
SMAN 1 GEGESIK - Cirebon, Indonesia High School Science	Jul 2019 - May 2022

Projects

Med-Connect: Web & Mobile Prototype Application Telemedicine Platform	Feb 2025 - May 2025
--	---------------------

Team Leader & UI UX Designer

- Spearheaded a major academic project, leading a team of 3 in the end-to-end design and prototyping of a user-centric telemedicine application that meets all functional specifications.
- Designed and developed a high-fidelity, interactive prototype in Figma, and created custom UI assets and illustrations using Adobe Illustrator to ensure a polished final design.

Leaf-in: Healtyfood Mobile Application

Team Leader & UI/UX Designer | Academic Project – Mobile Programming Practicum

- Led a 5-member team to build a healthy food mobile app prototype.
- Designed UI/UX in Figma and created logo & UI assets with Adobe Illustrator
- Coordinated frontend and backend teams to ensure cohesive implementation.

Organizational Experience

Google Developer Groups On Campus Universitas Pasundan

<i>Staff of Media Creative Department</i>	Oct 2024 - Present
• Designed and produced a wide range of digital and print promotional materials, including event banners, social media posters, and merchandise, ensuring strict adherence to Google's brand consistency guidelines. • Collaborated cross-functionally with technical and event departments to define project requirements and translate complex information into clear, engaging, and accurate visual content.
